

## ACCREDITATION

Our national and international recognition by different accreditation bodies ensures the high quality of our work. Our reports, declarations and certificates are accepted worldwide.

Since 2011 Kiwa Primara has been accredited by the Deutsche Akkreditierungsstelle GmbH (DAkkS) according to DIN EN 17025 and DIN EN 17065 to test and certify electrical equipment. In addition, we offer testing and certification in the IECEE CB Scheme procedure and are a recognized GS certification body.

# PRODUCT SAFETY AND CERTIFICATION

For your worldwide market success

# GLOBALLY RECOGNIZED CERTIFICATES FOR PRODUCT SAFETY

We test and certify the safety of your products in accordance with national and international standards, guidelines and regulations.

## ✓ WE ASSESS ACCORDING TO THE FOLLOWING STANDARDS, AMONG OTHERS:

- IEC/EN 62368-1 (Audio/video, information and communication technology equipment)
- IEC/EN 61010-1 (electrical equipment for measurement, control and laboratory use)
- IEC/EN 60079-X (Explosive atmospheres)
- IEC/EN 60601-1 (Medical electrical equipment)
- IEC/EN 62109-1 (Power converters for use in photovoltaic power systems)
- IEC/EN 60204-1 (Machinery - Electrical equipment of machines)
- IEC/EN 60529-1 (Degrees of protection provided by enclosures (IP Code))
- IEC/EN 60950-1/-22 (Information technology equipment)
- IEC/EN 60335-1/-XX (Domestic appliances)

## ✓ WE OFFER THE FOLLOWING CERTIFICATIONS:

### CB certification (Certification Body)

A CB test report from a CBTL and a corresponding CB certificate from our NCB will help you meet a wide range of international safety requirements and gain access to marketing in over 50 countries. We offer you both from a single source and test your products according to IEC standards as well as country-specific deviations.

### GS/BG certification

The worldwide known GS mark (Tested Safety) or the voluntary Kiwa Primara-BG „type approved“ mark confirm that the marked product meets the safety requirements and that production is regularly checked and monitored at the manufacturer's production facility. In this way you demonstrate conformity awareness and stand out from your competitors.

### International certifications and approvals

Through a strong partner network and our extensive accreditations, Kiwa Primara can help you achieve NRTL certifications that give you access to the U.S. and Canadian markets. Also for Australia/New Zealand and many other countries and economic areas our experts are at your disposal at any time.

### PRODUCT CATEGORIES:

- Battery storage
- Power supplies/chargers
- Control and regulating devices
- Luminaires and illuminants
- Measuring and laboratory equipment
- Telecommunication equipment
- Information technology equipment
- Machines and equipment
- Transformers
- Consumer electronics
- Audio/Video Devices
- Domestic appliances
- Medical devices
- Devices for use in potentially explosive atmospheres
- Railway applications

As an independent and neutral service provider, we support your national and international market access. Whether you are a small innovative start-up or an internationally operating company – we have the right testing and certification services for you. The cooperation with Kiwa Primara results in a higher value of your products and processes. The sustainable development of safety and quality of your products as well as the smooth, uncomplicated and fast handling of conformity assessment is our main claim. The tests are carried out either in our well-equipped laboratory, at the customer's or at the supplier's site. Our aim is to provide competent services within short lead times.

## WHY KIWA PRIMARA?

- **Time To Market:**  
We meet your timeline.
- **Quality:** Competent and trained personnel, state of the art test equipment.
- **Service:** Technical experts are your personal contacts.
