Regulatory Update

23rd May 2012

Temporary Import Authorisation - Djibouti

The Regulatory Authority in Djibouti, Ministère de la Culture et de la Communication, chargé des Postes et des Télécommunications (MCCPT), have announced that they are in the process of updating their spectrum management system during which time no Type Approvals will be issued.

In the interim, the MCCPT have advised that temporary import authorisations can be granted to any companies wishing to import their products into the country.

It is therefore recommended for applicants to submit requests for temporary import along with the relevant technical documentation for the MCCPT to review.

Further advice will follow once the new laws on spectrum management have been passed.
