

Regulatory Alert – Kuwait

New online system at CITRA

Kuwait Regulator, *Communication and Information Technology Regulatory Authority* (CITRA) has recently launched a new online system for Type Approval services. This was announced and has come into effect as of December 2017.

Companies applying for Type Approval either directly or on behalf of manufacturers are obligated to register on the system before being able to seek Approval.

PCS are pleased to confirm that we are registered and can continue to fully support Type Approval in Kuwait.

There is no change to the Type Approval fees or documentation requirements as a result of this change. The overall lead-time to Approval is also expected to be shorter.
