

Regulatory Update - Argentina

Resolution 5186-E/2017 issued - update to the current Q2-60.14V16.1 technical standard

On 16th June 2017 the Argentinean Regulator, *ENACOM* (Ente Nacional de Comunicaciones) published Resolution 5186-E/2017, which updates the current Q2-60.14V16.1 technical standard for Low Power Devices.

The two most relevant changes outlined in Resolution 5186-E/2017 are:

- Update to the output power for some frequency bands, such as 401 – 402MHz, 402 – 405MHz, 405 – 406MHz, and 433.075 - 434.775MHz.
- Addition of the 3.1-10.6GHz frequency band for handheld UWB systems and widening of the frequency band for UWB automotive radars ranging between 22 - 26.65GHz, which was previously limited to 24.25 - 25.8GHz only.
