Regulatory Update - China

Notification “工信部无[2017]276” released regarding newly available frequency ranges for 5G Mobile Communication System

On 9th November 2017, the Ministry of Industry and Information Technology of the People's Republic China (MIIT) formally released a notification regarding the new frequency ranges (3300-3600MHz and 4800-5000MHz) opening for the fifth generation (5G) Mobile Communication System.

Details of the regulation are as below:

- The new frequency ranges permitted for 5G system are 3300-3600MHz and 4800-5000MHz. 3300-3400MHz is for indoor use only.
- The frequency ranges mentioned as above shall not cause interference with other wireless devices and radio astronomical business.
- The application for 5G frequency usage is regulated by State Radio Regulatory Commission (SRRC).
- The application scheme, radio technical parameters and station regulations will be further discussed and released by SRRC in the near future.

A full copy of regulation “工信部无[2017]276 ” can be located [here](#). The text is in Chinese language only.
