

Regulatory Update

Delays Expected to Type Approval applications in Paraguay

Please note that due to recent political changes in Paraguay and internal restructuring within the Authority 'CONATEL', delays are likely to be experienced to the processing of all Type Approval applications.

A new President of CONATEL has been elected, but is yet to assume full Authority. His predecessor has had all power dissolved. As such, all applications in the final stages of the Approval process (i.e. pending final Approval or signature) have been frozen until further notice.

This is likely to cause a backlog for all proceeding applications including those which are currently under technical review, so delays should be expected across all Type Approval applications at any stage of the process.

Unfortunately, the timescale for the completion of the restructuring has not yet been confirmed but is currently estimated at approximately 3 weeks.

Further advice will be provided as soon as possible.
