

Regulatory Update

14th July 2016

Nepal – Revised Type Approval Procedure released

On 9th July 2016, Nepal Telecommunications Authority (NTA) published Approval Working Procedure for Customer Premises Radio Telecommunication Equipment-2016 (TAP-04). It is the updated version of Type Approval Working Procedure for Customer Premises Radio Telecommunication Equipments-2014 (TAP-03).

In the revised type approval procedure, changes have been made to Technical Specifications of the Equipment for Mobile Handsets and submission time for renewal of permanent periodic type approval certificate.

Please find below the comparison tables showing the detailed changes between the old version and revised version of the procedure:

Technical Specifications of the Equipment for Mobile Handsets	
Old Type Approval procedure	Revised Type Approval procedure
Battery Parameters: Nominal Voltage: 3.7 V Maximum Charge Voltage: 4.2 V Minimum Charging Capacity: 850 mAh	Minimum Charging Capacity of Battery: 600 mAh (for Bar Phone i.e. Normal Keypad phone) 1000 mAh (for Smart Phone)
Maximum EIRP: 33 dBm or 2W	Maximum EIRP: 33+/-2 dBm

Submission time for renewal of permanent periodic type approval certificate	
Old Type Approval procedure	Revised Type Approval procedure
The applicant has to apply for renewal of the permanent periodic type approval certificate at least 3 months prior to the date of expiry of the Permanent Periodic Type Approval Certificate	For the renewal of permanent periodic type approval certificate, an application must be submitted at least 30 days prior to the date of expiry
