# Regulatory Alert - Chile

## **National strike action ongoing**

Strike action is being taken by all public-sector employees, including the Chilean telecommunications regulator, SUBTEL in demand for salary increases and improved working conditions. What was initially planned to last 3 days has now been extended further to a decision taken by the National Association of Fiscal Employees (ANEF).

Delays in lead time are expected to be incurred for all Type Approval applications currently under review at SUBTEL. It will also not be possible to submit any new applications until the strike action is called off. It is currently unknown when this will be.

PCS will be closely monitoring the situation and will provide further updates once information becomes available.
