

# Regulatory Alert – EGYPT

## **Additional requirements for import of cellular Mobile Phones and Tablets**

It has recently been advised by the National Telecom Regulatory Authority (NTRA) in Egypt that all importers of cellular mobile phone and tablets must submit an email to NTRA detailing the IMEI numbers each model in each consignment that is shipped into Egypt. This is for the purposes of market surveillance.

The email should include details of each model's IMEI, the AWB number, date and the importer company name.
