Regulatory Update

17 March 2016

Brazil – ANATEL – Labelling, EAN barcodes and ANATEL ID format

Further to PCS Regulatory Update on 14th of March, PCS have been informed that the EAN code is NOT required at all.

The previous update advised:

3. It is understood that the EAN number and bar code are no longer required for the ANATEL label composition, but will still need to be generated for Type Approval applications.

The statement should be as follows:

3. The EAN number and bar code are no longer required for the ANATEL label composition.
