Regulatory Alert - Mexico

Full accreditation now obtained to test and approve
under NOM-EM-016-SCFI-2015

Further to PCS' Regulatory Alert released on 27th October 2015, Mexican test laboratories and Certification Bodies have now received full accreditation to test samples and file Type Approvals under the Mexican emergency standard NOM-EM-016-SCFI-2015, which applies to all devices which operating on the frequency bands 2400-2483.5MHz, 5725-5850MHz and 902-928MHz.

PCS understands that there is no impact to the lead-time of the certification process and there are no changes to the process itself. Nevertheless, due to an increase in laboratory fees, there will be a small increase to the overall certification costs for new Type Approval applications filed in accordance to NOM-EM-016-SCFI-2015.

There remains no impact to any devices Approved in accordance with the previous NOM-121-SCT1-2009 before October 19th 2015. All such Approvals will remain valid and import can continue. Furthermore, Renewal applications can still be filed for Approvals issued under NOM-121-SCT1-2009.
