Regulatory Update

16th March 2016

Netherlands Antilles - BES (Bonaire, St Eustatius, Saba) – exemption list published for radio communication equipment is for licenses only.

Further to PCS Regulatory Update on 7th of March, PCS have been informed by the Authority that information previously advised whereby Type Approval is no longer required was unfortunately incorrect. The Authority has now re-clarified that the exemption list published for radio communication equipment applies to licenses only and not Type Approval as initially advised.

The Type Approval requirements and processes are to remain as before and there are no changes.

We will continue to update you on any progress or changes in regards to this article.
